## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-42 are allowed.

The following is an examiner's statement of reasons for allowance:

The references fail to teach, disclose, or suggest, either alone or in combination, certain of the tail end portions of the second terminal contacts are electrically connected to certain of the tail end portions of the first terminal contacts; and a switching block positioned to slideably move within the insert receiving cavity; whereby insertion of a plug having a switching protrusion into the plug receiving cavity of the connector contacts and moves the switching block away from the plug receiving cavity breaking the electrical connections and in combination with the rest of the limitations of the base claims.

As mentioned in Applicant's arguments (Pages 9-12), the Hammond et al. reference does not teach the limitations mentioned above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
